

### The easy skiff

If you have been thinking of getting a skiff for some time, but would rather spend more time on the water than in it, look no further. With the Astus 14.1 sailing a skiff does not mean months of training anymore. You get the thrill from the first day. No learning curve, just instant fun!

### Fast and forgiving

Beginners and experienced sailors alike will enjoy a skiff capable of picking up speed in light wind whilst being stable and easy to control. Give it F3-4 and the boat will take off and put a smile on your face like you never had before!

Each float, with 80 litres of buoyancy, provides the same righting moment as an adult on a trapeze. This allows the boat to carry more sail on a narrow planing hull and achieve planing speeds more quickly.

### Easy to live with

The flared hull and large cockpit provide a dry and comfortable sitting position for two adults. Sitting out on the trampolines is easy and comfortable.

A watertight storage compartment in the foredeck keeps your belongings dry and safe.

### Car-toppable

The Astus 14.1 can be easily rigged within minutes and without any tool. The main hull weighing a mere 48 kg, the boat can be easily transported on the roof of your car, with the two-section mast carried easily alongside the boat.

Alternatively a combination trailer with detachable launching trolley is also available. The Astus 14.1 can be towed with the floats either mounted or dismounted.

### Specifications

Length overall	4.18 m
Beam	2.50 m (including floats) 1.10 m (main hull only)
Weight	48 kg (main hull only) 80 kg (with floats and spars)
Draught	0.80 m (centreboard down)
Sail area	Main: 8 m <sup>2</sup> Furling jib: 2 m <sup>2</sup> Furling gennaker (optional): 6.5 m <sup>2</sup> Asymmetric spinnaker (optional): 8 m <sup>2</sup>
Architect	Stéphane Vallet
